9.30 A.M. – 11.30 A.M.

TWO HOURS

INSTRUCTIONS TO CANDIDATES

Answer question (1) and *any two* of questions (2), (3), (4)

Question (1) is worth **40** marks.  
Questions (2), (3), (4) are worth **30** marks each

1. (a) What is the meaning of the term, *search engine optimisation* (SEO)?  
(3 marks)
- (b) Describe **four** SEO guidelines that should be employed when designing websites.  
Use code where necessary.  
(8 marks)
- (c) Discuss **two** ways in which HTML5 can be used to validate the form. Use examples to support your answer.  
(8 marks)
- (d) i. There are various choices of *responsive layout* available to a web designer.  
What are they?  
(4 marks)
- ii. Discuss the meaning of each choice using code, where necessary, to support your answer.  
(8 marks)
- (e) Describe **three** guidelines that a user interface designer should use to help memorise a particular interface.  
(9 marks)

2. (a) What is the *Document Object Model* in Javascript?

(8 marks)

(b) Write Javascript code, which will change the text of the following layer from “DT265 Semester 1” to “DT8265 Semester 2”.

`<div id = “myParagraph”> DT265 Semester 1</div>`

(6 marks)

(c) Write Javascript code that will change the font-colour of the layer “myParagraph” in 2(b) to blue.

(6 marks)

(d) What is the meaning of *event handling* in Javascript? Use code to support your answer.

(6 marks)

(e)

When a link in a web page is hovered over, a message stating “Don’t click this link” appears in an alert box. Write the Javascript code for this.

(4 marks)

3. (a) What is a *mental model*? (4 marks)
- (b) How are mental models relevant to user interface design? Use examples to support your answer. (6 marks)
- (c) Discuss the term *flat user interface design*. Use examples to support your answer. (8 marks)
- (d) What are the *two advantages* and *two disadvantages* of flat user interface design. (12 marks)

4. (a) Describe the **four** types of CSS. Use code to support your answer. (12 marks)
- (b) The CSS positioning properties allow you to position an element. Discuss the **four** positioning methods using code to support your answer. (8 marks)
- (c) Write the code for a horizontal navigation menu, using an unordered list (using CSS and HTML where necessary). (6 marks)
- (d) The following piece of CSS code is used to style the 4 boxes shown below. What attribute is missing?

```
div{  
    height: 50px;  
    width:100px;  
    border: 2px solid black;  
    border-radius: 5px;  
}
```

(4 marks)
